Recently made a fellow of the Society of Garden Designers, Ann-Marie Powell prides herself on creating truly bespoke gardens with colourful, ecological planting designs for a wide variety of clients.

ANN-MARIE POWELL

'We adore designing naturally inspired, uplifting landscapes for the discerning client in a rural, refined style,' says Ann-Marie Powell. 'Our wild, loose, textural plantings are full of colour and soul to encourage wildlife and a sense of wellbeing.' Following the opening of her World Food Garden at RHS Wisley, Ann-Marie is currently working on a flagship therapy garden for the Greenfingers charity at The Nook children's hospice in Norfolk, as well as her usual eclectic selection of private gardens.
